Hiring Manager

e-Global Mega Corp

Dear Hiring Manager,

I am writing to apply for the Junior Systems Administrator position at e-Global Mega Corp. I am currently in my third year of a Bachelor of Information Technology at Otago Polytechnic, where I have developed a strong foundation in networking, operating systems, and systems administration. I am particularly interested in Linux systems and IT infrastructure, and I am excited by the opportunity to apply and further develop these skills as part of your team.

Alongside my studies, I have built and maintain a personal Debian Linux homelab to develop practical systems administration experience. Through this project, I have gained hands-on experience with user and group management, package updates, SSH, systemd, networking, ZeroTier, and troubleshooting system and network issues. I have also hosted Linux-based game servers, configuring services, managing applications, resolving technical issues, and documenting configurations and solutions as I continue to learn.

My coursework and personal projects have given me a solid understanding of Linux administration, networking concepts such as TCP/IP, DNS, and DHCP, and scripting with Bash and PowerShell. I also have introductory experience with AWS and Microsoft Azure and enjoy exploring new technologies through hands-on experimentation. I am comfortable working independently to solve problems while also collaborating with others and communicating technical information clearly.

What appeals to me most about e-Global Mega Corp is the chance to work alongside experienced systems administrators on real infrastructure projects while continuing to build my technical skills. I enjoy learning, take pride in being organised and methodical, and am always

looking for opportunities to expand my knowledge and contribute to a team. I am eager to pounce on the chance to contribute to your infrastructure team while continuing to develop my skills as a systems administrator.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills, enthusiasm, and willingness to learn would make me a valuable addition to your team. I look forward to hearing from you.

Yours sincerely,

Logan J. Olding
